

From: IFCC Office
Date: 15 December 2016
Ref: TF - PT DB

To: **National Representatives of IFCC Member Societies**
Representatives of IFCC Corporate Members

The IFCC maintains a worldwide directory of EQA/PT providers in laboratory medicine for the in vitro diagnostics scientific community, which can be found at:
http://www.ifcc.org/media/435572/Directory_of_EQA_Service_11_Oct_2016.pdf

This Directory is a useful source to look for contacts, websites and additional information when searching for EQA schemes in Clinical Laboratories.

The IFCC **Committee of Analytical Quality (C-AQ)** and the **IFCC Task Force on Proficiency Testing (TF-PT)** jointly plan to migrate this directory to a full online database-web application.

We ask your help in implementing this new database by sending the following link (<http://ptdb.ifcc.org/npr-52lo895/>) to the EQA/PT provider(s) in your country in order to be included in this database.

Thank you for your cooperation.

Best regards

Egon Amann
Chair IFCC C-AQ

Alexander Haliassos
Chair IFCC TF-PT
